Blogging: Checklist

Blogging is an act of reflecting and posting one's thoughts on a given subject or topic. It should be reflective and make a personal connection to your learning. Blogging also includes taking part in our classroom community by leaving comments on others blog posts. Thirdly, blogs can be used as a digital portfolio that showcase your technical skills by enhancing your blog with video, audio, images, and pictures.

	Exceeding (E)	Meeting (M)	Beginning to Meet (BM)	Not Yet Meeting (NY)	Insufficient Evidence (IE)
Ideas & Content Posts show insight, depth and connection to the topic. The author's voice is apparent throughout the post. Posts are highly relevant to the topic or event.					
Writing Quality Posts are well written and characterized by elements of strong writing style. The post is well-organized and easy to follow.					
Mechanics/Conventions Minimal spelling, punctuation, capitalization or grammatical errors.					
Post Completion & Enhancements Posts are completed on time. The author uses appropriate word choice, as well as images or other add-ons, to enhance their final product.
